First-That the Supreme Court of the State and the Supreme Court of the United States have decided that there is no way by which the Taxing-District government can be made responsible for the debt of the city of Memphis, or be forced to levy a tax to pay it save by an act of the Legislature.

Second-If such an act was passed by the Legislature the bondholders would refuse to take less than cent for cent for their bonds, as they did under the Flippin compromise act, and would press mandamuses upon the District to the utter ruin of the people.

Third-The fifty-cent act is such a law. It connects the Taxing-District directly with the city of Memphis by its fifth section, which revives and makes operative the sixth section of the Flippin act, which made the levy of a tax to pay the interest and principal of the debt obligatory upon the Council.

Fourth-If the Taxing-District Council adopts this fifty cent act the door will be thrown open for mandamuses, and the work necessary to keep the city in a good sanitary condition and pave its streets will come to an end. It will prove the ruin of the Tax-

THE High-Tax Democrats promised their Low-Tax brethren, if they would agree to the fifty-and-four settlement, that they would join them in presenting it to the people as a finality of the State debt question. They agreed. The High-Tax Democrats are, therefore, bound to stand by their promise and would be dishonored were they to press the sixty-and-three, four, five and six upon the Democratic Convention for its adoption.

THE Democrats of Dallas county, Ala., in convention, recently passed a series of reso-lutions in which they declare that they have watched with loving pride the brilliant course of Senator Morgan in the councils of the nation; that they love and admire him as a man and a senator; and that "his unanimons re election to the Senate of the United States would redound to the glory of Alabams and be a proper indorsement of a tried, true and able public servant,"
